## WHAT FINNTRAIL WADING GEAR IS ALL ABOUT

FINNTRAIL has been developing and designing technological gear for ATV & UTV riders more than 10 years. Our team tests all products in natural conditions of water, mud and swamps in all weather conditions. Our gear and us challenge the harshest fords, the thickest mud and the most viscous swamps. Only after the gear has withstood these conditions does it leave our warehouses to help ATV & UTV riders from all over the world every day. Top riders have contributed to the testing and development of FINNTRAIL gear from this catalog. Join us!

We produce the highest quality ATV & UTV wading gear  
We are confident in its quality and reliability, that is why we provide a 1-year warranty

# OUR MISSION

To create technologically advanced ATV & UTV wading gear for hardcore offroaders and outdoor expeditions, with a focus on continual product development, positive customer service and worldwide brand awareness.

## OUR BRAND STORY

The wading gear ATV and UTV riders use has evolved a lot over the years. Wading gear was originally developed based on the demands of hunters and fishermen, and riders had no choice but to use what was available. Unfortunately, what worked for hunters or fishermen often fell short in extreme off-road riding conditions.

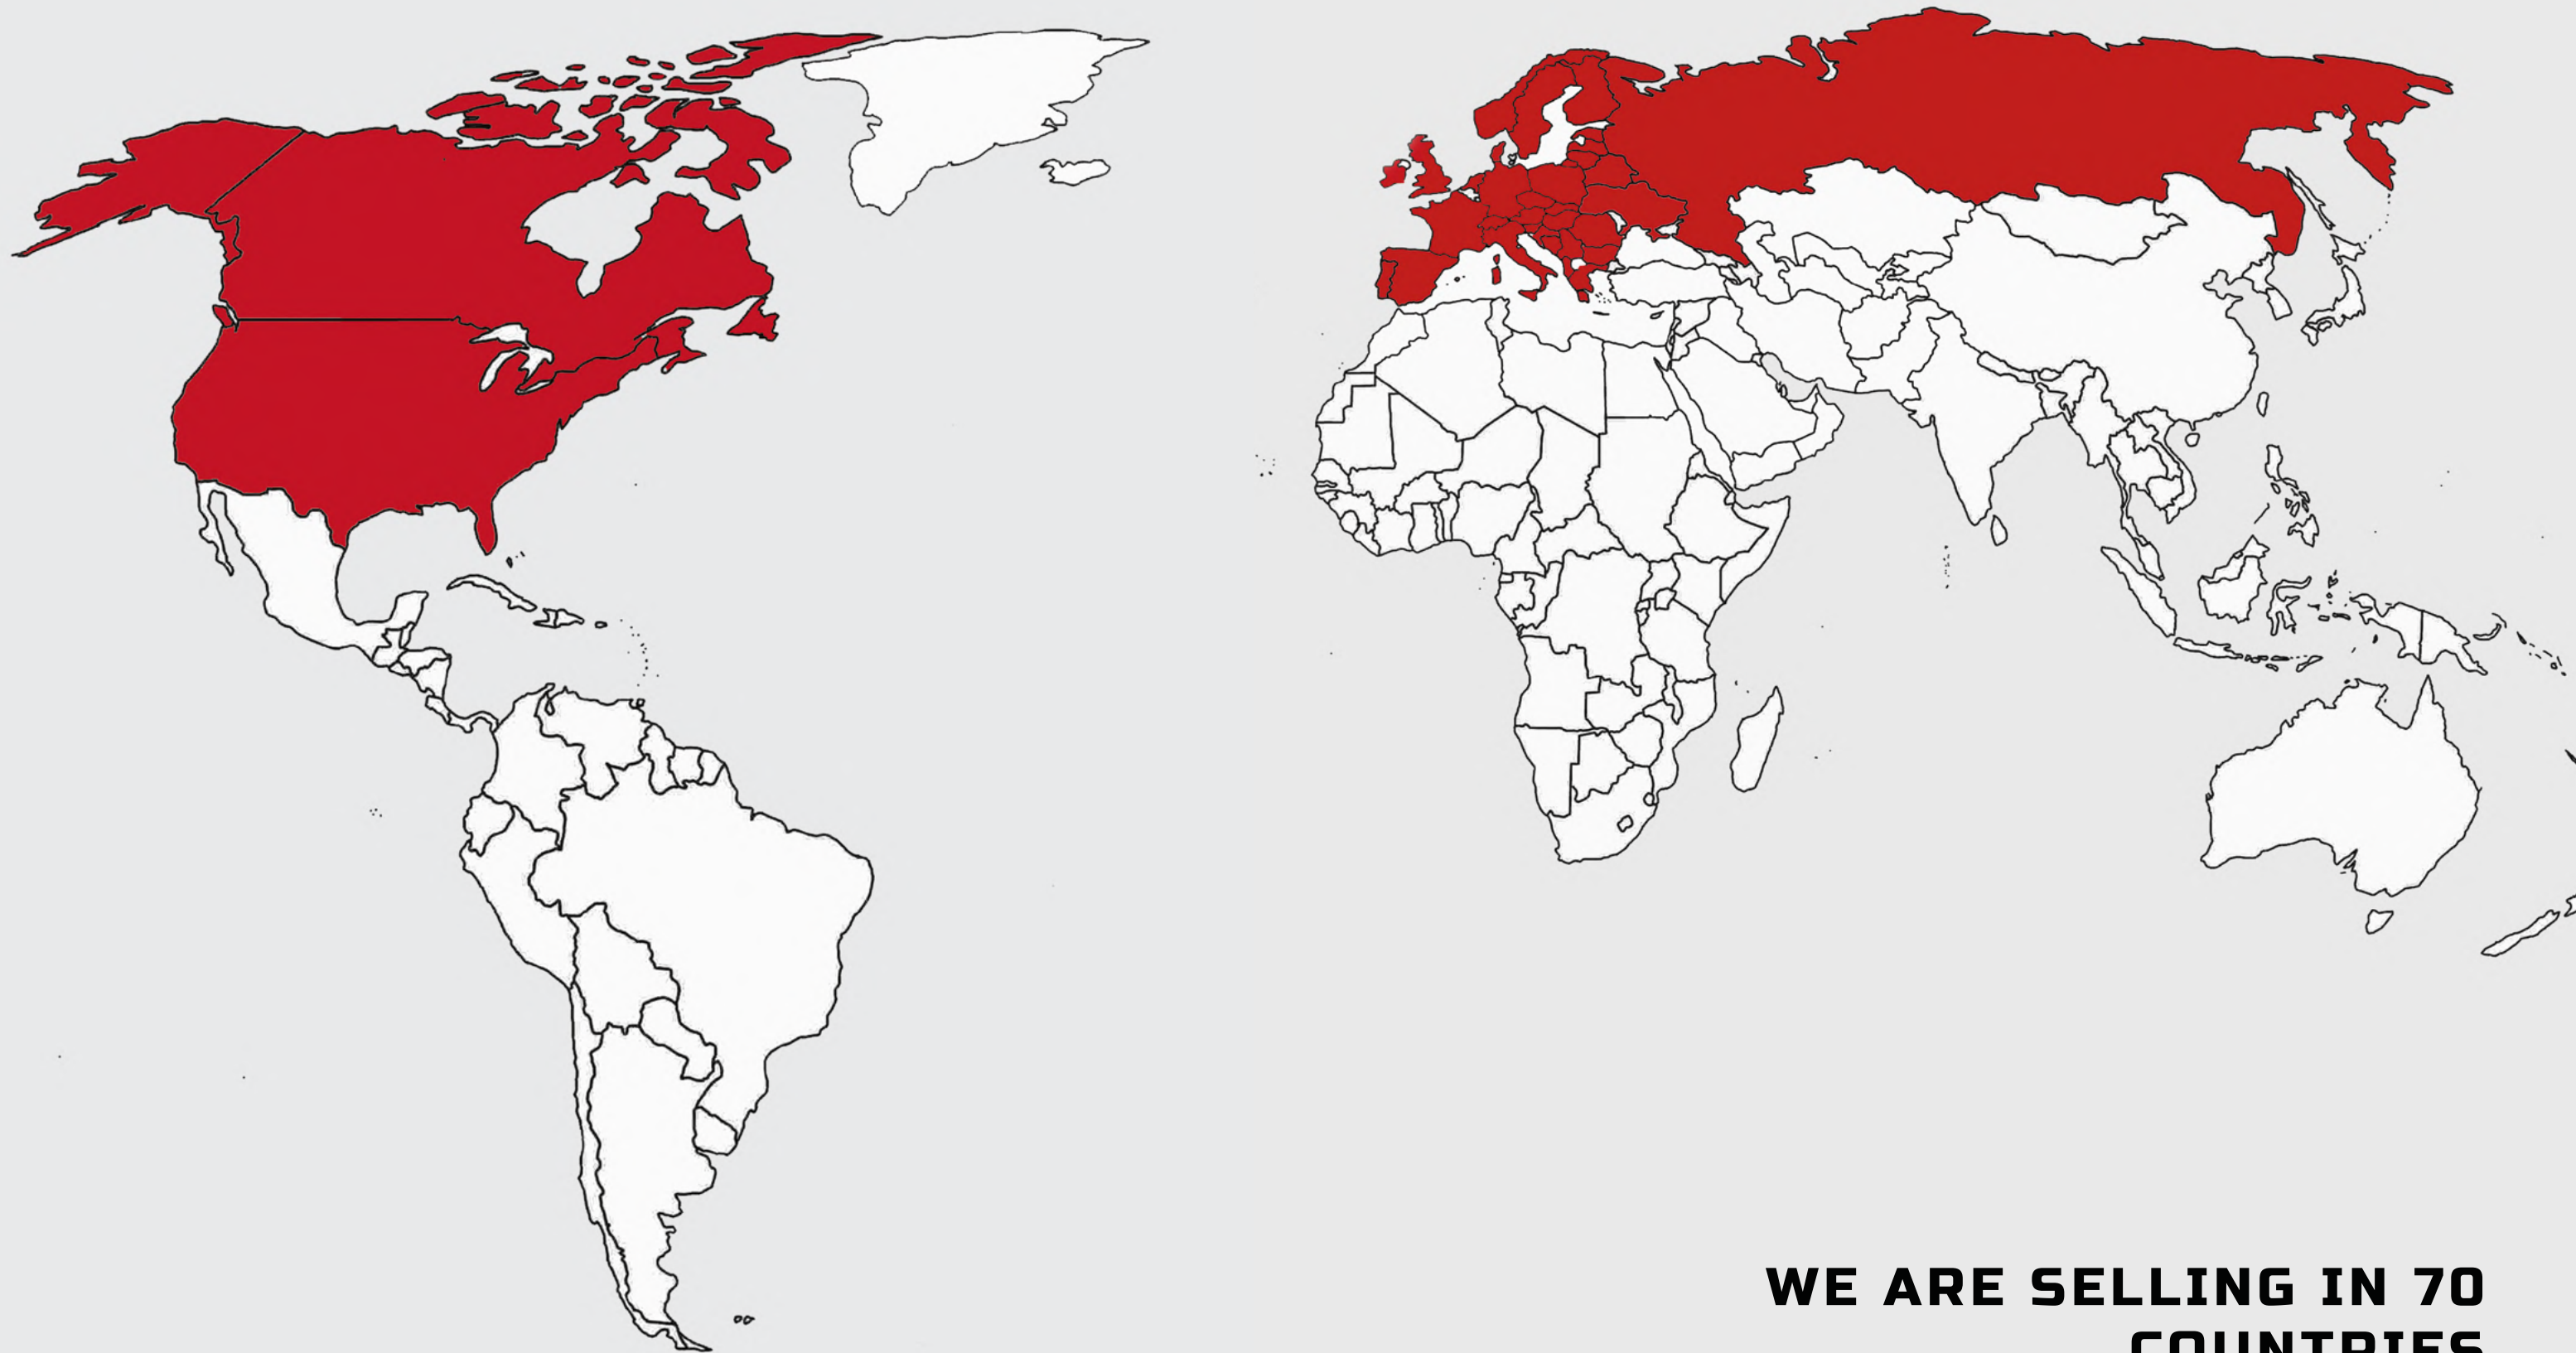

Fishing waders were good for traversing water and mud, but couldn't handle the stresses of extreme off-road riding, and often tore or otherwise got damaged. Hunting waders, although a little tougher, restricted movement while riding and still tended to show serious wear after only a few rides. It was evident that a specialized product was needed.

More than a decade ago, the founders of FINNTRAIL set out on a mission. Being off-road enthusiasts themselves, they understood what riders needed. The team at FINNTRAIL first set a goal to improve a set of fishing waders and convert them into specialized ATV/UTV waders. This is what started it all.

FINNTRAIL products are a direct result of years of real-world testing. Many years of R&D in the field have backed our products' evolution. We continually test our gear and listen to our customers' feedback to further improve our existing lines, and develop new products. Ever-advancing designs are coupled with the latest high-tech materials to provide gear that is modern and stylish as well as functional and comfortable, all while maintaining high levels of durability in the harshest environments.

**WE ARE SELLING IN 70  
COUNTRIES**

Recognition of the global community of riders is  
what really matters to us and what we truly value.

**ANYTIME + ANYWHERE**

FINNTRAIL gear is suitable for all riding conditions, no matter what season of the year.

# RIDE HARD, LOOK GOOD

Yeah, why not, if we can! Riding hard in safety and comfort, and looking good even while up to ears with mud and water is priceless. Impressive design, variety of colors and patterns and is another FINNTRAIL advantage for riders.

## WATERPROOF SYSTEM FOR PROPER WATER AND MUD RIDING

Inveterate riders are always surrounded by tons of water and mud that splashes everything around: from ATVs and themselves, and to people around.

Waterproof

Durable

Lightweight

Breathable

## THE CORE FINNTRAIL PRODUCT IS WADERS

Waders are a type of a bib & brace overall made of a durable membrane fabric, which allows you to cross water obstacles up to 5 feet deep as well as to stay in the rain all day remaining dry and comfortable.

# FINNTRAIL RIDING SYSTEM

1

## BASE LAYER

- Moisture removal and heat saving
- Thermal underwear

# WHAT THE EXPERTS THINK

## OSTACRUISER

World-famous **ATV & UTV rider**

I've been partnered with FINNTRAIL for over three years and I'm 100% satisfied with their gear! Personally, I've never used better wading gear than what these guys are producing! It is super comfortable, really durable, and keeps me and my crew dry! It's the best choice on the market.

## ROBIN JANSSON

CEO | Owner **RJWC**

Our FINNTRAIL gear keeps us dry and warm! Very thought out design of both the jacket waders and shoes. We also have their neoprene gloves and they are awesome. We ride a lot of muskeg here and its very wet and cold conditions. FINNTRAIL does a great job! It keeps you dry and warm and you look cool while doing it. They are also easy to clean!

## ADRENALINE JUNKIE PROD

Team of Youtube vloggers

We test a lot of different gear, we ride a lot, and we ride hard. We ride in all weather conditions while we are out shooting YouTube videos and we really love our FINNTRAIL gear. It does great in mud, dirt, rain, or even snow. It's hands down the best wet weather riding gear you can get, we recommend it to everyone!

## CHRIS BLACK

Extreme **ATV Offroad**

Huge shout out to FINNTRAIL for making my life so much easier! I love this all season wading gear! Not one failed zipper. Not one puncture. Not one boot chafe. Zipping waders are fantastic! All I can say is thank you guys, for making this gear so comfy and durable.

**WATERPROOF, BREATHABLE AND DURABLE**  
**WADING GEAR FOR MUD AND SWAMPS AT ANY SEASON**

#### **WHAT ARE WADERS FOR ATV & UTV**

Waders are a type of waterproof riding gear. They help you traverse chest deep water and withstand heavy rains or repeated splashes while remaining warm, dry and mobile. At FINNTRAIL, we use waterproof, breathable and durable fabrics utilizing Hard-Tex membrane technology. This makes our gear completely waterproof, yet breathable. It is durable and reliable even in the harshest conditions. All the high-wear areas, such as knees, buttocks, thighs and lower legs, are reinforced to be extra durable and puncture resistant. Aside from being tough, our waders look great and match our line of FINNTRAIL jackets, wading boots and thermal underwear. Combine our full line of outdoor gear for the ultimate level of protection, comfort, and style on the trail.

# WHAT IS SPECIALIZED ATV/UTV GEAR?

**IF YOU'RE GOING TO FISH AND AFRAID OF GETTING DIRTY, THEN YOU JUST CAN PICK SOME CLOTHES FROM THE NEAREST MALL. BUT IF YOU'RE REALLY READY TO BATTLE — WELCOME TO FINNTRAIL!**

**1 |**

Abrasion Resistance: common waders are puncture-proof only. Special ATV / UTV waders are also protected from abrasion, this kind of damage usually kills the gear in the OFF-ROAD.

**3 |**

Partial protection won't be enough for you, right? With FINNTRAIL you can fully equip yourself: a jacket, waders, boots, gloves and thermal underwear of which the FINNTRAIL RIDING SYSTEM consists.

**5 |**

A wide line of functional gear: everyone can choose the item to suit their needs, from light waders for a hangout to reinforced ones for the most harsh rides.

**7 |**

Articulated cut: the gear is made in such a way as the rider can comfortably sit for a long time.

**9 |**

The weakest point of waders is the seams; manufacturing technologies with a minimum number of seams are applied to the construction of FINNTRAIL waders.

**2 |**

Maximum level of protection of the most stressed gear areas while riding ATV / UTV: armored fabric on the inside of the legs, seat and knees.

**4 |**

Special hydrophobic dirt-repellent coating: water and dirt don't linger on our riders, thereby not disrupting the breathability of the membrane.

**6 |**

Ride hard, look good - FINNTRAIL has not only a conservative design, but also a wide line of aggressive colors.

**8 |**

Thin boots are easy to puncture when contacting wheels, sharp branches or stones. FINNTRAIL boots are made from the most durable materials and components designed especially for extreme using. Boots provide ankle support, protecting against dislocations and injuries.

**10 |**

The devil is in the details. We make gear for people who love extreme sports; such options as reflective elements, cut-in (not hinged) pockets, mounts for the walkie-talkie, a collar that does not interfere with the use of a helmet, and magnetic fasteners instead of Velcro ones make our gear adapted for the riders needs.

## WADING BOOTS

## WHAT ARE WADING BOOTS

For the maximum level of comfort, your safety during extreme riding, and to prevent gear damage, special shoes are simply necessary. FINNTRAIL wading boots provide maximum protection for your ankle with the comfort level of tracking boots. When manufacturing boots, we take into account the anatomical features and the harsh conditions that you will encounter during off-road ridings.

# BOOTS

## SPEEDMASTER 5200

Top notch wading boots with the highest level of comfort, endurance and protection riders's feet. Unique sole protector protects foot against puncture and prevents sticking mud and sand.

- Synthetic leather and a damage-resistant durable fabric
- Solid rubber welt protection
- Durable rubber sole
- Mud-free rubber tread
- Strong ankle support
- Proper protection for toes and heels
- Neoprene elements for shock absorption and comfort
- Reliable nylon bootlace

**COLOR** Graphite  
**SIZE** 6-14

## SPORTSMAN 5198

The model boasts a highly-distinctive design and the stoutest sole. The most wear-resistant fabric with extra reinforcement coating is used. The boots combine abrasion resistance and perfect comfort of sports shoes.

- Damage-resistant and durable fabric
- Solid rubber welt protection
- Durable rubber outsole
- Special mud-free tread
- Strong ankle support
- Neoprene elements for shock absorption and comfort
- Reliable nylon bootlace

**COLOR** Blue, CamoArmy  
**SIZE** 6-14

# BOOTS

## GREENWOOD 5223

NEW

Classic style boots with a high level of comfort and reliability. Great for rough terrain. Made of lightweight and durable extra reinforcement material with extra rubber reinforcement in the forefoot and heel.

- Extra reinforcement material
- Reliable protection
- Durable rubber outsole
- Special insoles for cushioning and comfort
- Reliable ankle support
- Convenient wide loop at the back for a comfortable fit
- Durable nylon laces

**COLOR** Graphite  
**SIZE** 6-14

## URBAN 5090

These boots are designed in an urban style and made of a damage-resistant and durable fabric with an OXFORD weave. Boots have a perfect combination of great quality and a reasonable price.

- Soft and comfortable
- Damage-resistant and durable fabric with an Oxford weave

- Special mud-free tread
- Strong ankle support
- Reliable nylon bootlace

**COLOR** Graphite  
**SIZE** 6-14

# RUBBER BOOTS

## CAMP 7515

**NEW** SHORT BOOTS

Chelsea style short rubber boots with a soft inner lining and extra rubber reinforcement in the toe and heel. Durable rubber outsole with durable tread

- Side elastic bands and an enlarged loop at the heel for a comfortable putting on of boot
- FINNTRAIL original design with contrasting logos

**COLOR** CamoArmy  
**SIZE** 7 - 13

## OUTLANDER 7512

**NEW**

Sturdy, comfortable boots for hardcore off-roaders. Made of 5 mm neoprene and with a special lining that prevents condensation. Unique design of the bottom of the boots provide good ankle support.

- Anti-condensation lining
- Convenient wide loop at the back for a comfortable fit
- Versatile rough terrain tread

**COLOR** Red, Yellow, Khaki  
**SIZE** 7 - 13

# JACKETS

## WHAT IS A WADING JACKET

A wading jacket is made of a breathable membrane fabric. It is shorter than a regular jacket, has no lining, and is equipped with spacious chest-level pockets. Wearing a different type of a jacket can cause issues when you step into the water due to lining and pockets getting wet, letting water inside. A wading jacket use mud-resistant zippers and magnetic clasps instead of Velcro.

# JACKETS

## SPEEDMASTER 5320

A new advanced waterproof jacket tailored for extreme conditions boasts the upper level of water and mud protection. And tight-fitting neoprene wrist cuffs with taped seams prevent direct ingress of water.

**SIZE** XS - XXXL

**COLOR** CamoArmy, CamoLightGrey

## MUDWAY 2010

UPGRADE

Classical Finntrail mud jacket for any weather conditions. Choice of thousands of riders. No water or mud flying out of the wheels can spoil your ride if you got full protection with the jacket.

**SIZE** XS - XXXL

**COLOR** CamoGrey, Graphite, Red (NEW)

**WATERPROOF** 20 000 mm

**BREATHABLE FABRIC** 7000g/m<sup>2</sup>/24h

- Durable four-layer fabric with a HARD-TEX membrane
- Mud-resistant Teflon™ Coating
- Magnetic flap with snaps instead of Velcro
- Mud-resistant main zipper
- Waterproof wrist cuffs preventing water ingress
- Two spacious chest slip pockets with waterproof zippers
- Two inside chest pockets
- 3M reflective elements
- Detachable zippered hood
- Elastic belt
- Drying loops

**WATERPROOF** 17 000 mm

**BREATHABLE FABRIC** 7000g/m<sup>2</sup>/24h

- Durable three-layer fabric with a HARD-TEX membrane
- Mud-resistant Teflon™ Coating
- Magnetic flap with snaps instead of Velcro
- Mud-resistant main zipper
- Wrist cuffs preventing water ingress
- Two spacious chest slip pockets with water resistant zippers
- Two inside chest pockets
- 3M reflective elements
- Detachable zippered hood
- Elastic belt

# BE ONE WITH YOUR MACHINE

Like all quad lovers, we are crazy about visual tuning. We love how a new or freshly washed ATV looks.

In the design of Finntrail gear, we always have tried to highlight the bright colors and individual details of your vehicles.

And we do it for your feeling of beauty, additional unity with your machine, and for the perfect photos on social networks, of course.

New Renegade 2021, good old Outlander or Maverick — we got the perfect matching gear for it. Because you are as cool as your machine.

# SUITS

## SUITS

There are some rides on which you do not have mud puddles and deep fords to cross. Sometimes it's a pleasure to pack light for a ride. Finntrail suits are what you need for it! You'll get the same level of quality, sufficient level of protection against moisture and rain, while staying light and highly mobile.

# SUITS

## STORM SUIT 3415

UPGRADE

The suit is designed for light travel without overcoming deep fords and mud pits. The suit consists of two parts — bibs with high warm back with suspenders that can be adjusted in length and a jacket.

# THERMAL LAYERS

FINNTRAIL

## THERMAL CLOTHING FOR ALL SEASONS

The first layer of gear is just as important as external, main. The quality of your thermal clothing affects how long and comfortable you will ride, at any season. Therefore, in the production of thermal underwear, we first of all make sure that it performs its functions 100% and at the same time remains invisible during use.

# THERMAL LAYERS

## MASTER 1503

A jacket which in terms of the degree of warmness is comparable only to goose down. It is used as insulation, second layer or main jacket when driving off-road and in everyday life.

- Lightweight and compact
- Technological thermal insulation THERMALRATE
- Moisture-resistant top layer

**SIZE** S - XXL | Expanded size chart **Long** and **King**  
**COLOR** Graphite, CamoArmy

## NITRO 1320

**NEW** SOFTSHELL JACKET

This windproof water-repellent jacket will cope with light rain and will not be distracted from your favorite activity. Comfortable jacket suitable for everyday wear and as an insulating layer in the cold season.

- 3-layer SOFTSHELL material
- Soft fleece lining
- Chest pocket with zipper
- Windbreak under the center zipper
- Chest pocket and two side pockets with zippers
- Sleeves and hood with elastic ribbing

**SIZE** XS - XXXL  
**COLOR** Red, Blue, Petrol, CamoArmy

# THERMAL LAYERS

- Tight ankle cuffs

 **The upper part is reinforced with additional material**

**SIZE** S - XXXL

## ALL SEASON 6205

**SEAMLESS THERMAL UNDERWEAR**

Thermal underwear for any temperature conditions and extreme tasks. Made seamless, it improves the fit and eliminates chafing. The material removes moisture well in areas of increased perspiration.

- Odor control materials
- Hypoallergenic material
- All-year-round use
- Designed for extreme tasks
- Seamless technology
- Effect of compression

**SIZE** S-M L-XL XXL-XXXL

## THERMO - S 6304

**THERMAL UNDERWEAR**

Thermal underwear for cold weather. Perfectly removes moisture and accumulates body heat. It's pleasant to the touch and comfortable to wear.

- Anatomical fit
- Hypoallergenic material
- Flat seams

**+10° C (50°F) TO: -25° C (-13°F)**

**SIZE** XS - XXXL

## SUBZERO 6404

**THERMAL UNDERWEAR**

Warm thermal underwear with a high collar with a zipper. Made for the most cold conditions, it perfectly accumulates body heat, wicks away moisture and dries quickly.

- Hypoallergenic material
- Fleece fabric with a «Waffle-knit» Technology
- Flat seams
- Zippered high collar

**0° C (+32°F) TO: -30° C (-22°F)**

**SIZE** XS - XXXL

# THERMAL SOCKS

## EXTREME MERINO 3203

The warmest FINNTRAIL thermal socks specially designed for extreme cold conditions made of Australian MERINO WOOL.

- External protective layer for maximum wear resistance
- The X-shaped zone on the instep of the foot prevents the sock from slipping
- Anatomical cut and flat seams prevent chafing and provide comfort

**COMPOSITION:**

60% Merino wool; 20% Acrylic; 15% Nylon; 3% Elastane; 2% Spandex

**SIZE** 39-42 and 43-45

## MERINO 3201

Double-layered thermal socks made of MERINO WOOL special for tourism, extreme sports, and ATV & UTV riding in the cold season.

- The outer layer prevents an occurrence of callosities
- The X-shaped zone ensures that the socks stay up on your feet
- An ergonomic fit and flat knit toe seams prevent rubbing of sores

**COMPOSITION:**

60% Merino wool; 20% Acrylic; 15% Nylon; 3% Elastane; 2% Spandex

**SIZE** 39-42 and 43-45

## COOLMAX 3202

Breathable double-layered thermal socks for tourism, extreme sports, and ATV & UTV riding in the warm season.

- The outer layer prevents an occurrence of callosities
- The X-shaped zone ensures that socks stay up on your feet.
- An ergonomic fit and flat knit toe seams prevent rubbing of sores

**COMPOSITION:**

60% Coolmax; 30% Nylon; 5% Spandex; 5% Elastane.

**SIZE** 39-42 and 43-45

## NEODRY 3200

Neodry socks are an additional layer for waders or rubber boots. Made of cellular neoprene with fleece lining for comfort and warmth. The best choice for maximum insulation.

**ERGONOMIC FIT**

- Fleece lining
- Flat seams

**SIZE** M-XXL

# GLOVES

# GLOVES

## GT 2720

UPGRADE

100% waterproof gloves with additional reinforcing. Designed for loads in particularly difficult conditions and for prolonged exposure to cold and high humidity.

- Waterproof HIPORA® membrane

# SIZING CHART

## HOW TO CHOOSE THE PERFECT SIZE WADER

Measure your waist circumference at the narrowest part and measure your hips at the fullest part, standing with your feet together. Choose the largest measurement and refer to the size chart. If you are looking for ATV waders, add from 0.8 to 1.2 inches to your inseam measurement.

# SIZING CHART

## HOW TO CHOOSE YOUR WADING BOOTS SIZE

Place a piece of paper on the floor and sit down in a chair with your foot resting on the piece of paper. Trace the outline of your foot. Measure the length of the foot from the heel to the tip of the big toe in inches. Refer to the size chart. If you use neoprene or double layered thermal socks, add 0.20 inches.

Canada/USA	6	7	8	9	10	11	12	13	14
